A detail oriented Full-Stack web developer, seeking an opportunity that will allow me to advance in my career field. Innovative problem-solver who is passionate about developing different applications and seeing the final results. I recently earned a certificate in full stack web development from the University of Washington. Working in multiple different environments, like the military, retail, and quality control, has taught me to stay calm in stressful situations, react quickly, and take initiative. I take pride in my work and I am a hard worker, dedicated to my job. This helps me keep organized and focused on my projects, while I build websites that are user friendly.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

Applications: GitHub, MongoDB, MySQL

Tools: Express, React, Node, Handlebars, Query, Bootstrap, Bulma, Figma

PROJECTS

Whatsinmybel.ly | <https://morning-savannah-50964.herokuapp.com/signin>

- Co-developed a user-friendly foodlog application, that uses nutritionix API.
- Worked on the back-end team to help develop the functionality of the website.
- API's, Node, Express, bootstrap, CSS, Sequelize, MySql, Handlebars, bcrypt

Lost No More | dorley1993.github.io/LostNoMore/

- A weather dashboard, that uses openweather API's.
- Sole author
- API's, jQuery, bootstrap, JavaScript, html, CSS, Font Awesome

WORK EXPERIENCE

Biolife Solutions – Bothell, WA

Quality Inspector April 2019 – Present

- Quality Control
- Follow standard operating procedures, Safety and Good Manufacturing Practices to ensure that job functions are performed under compliance.
- Finished goods processing of product finishing line: participating in inspection, labeling, and secondary packaging.
- Help material in-processing, quality inspection and release.

- Performs finished product inspection for defects and removes defects. Ensures that products meet specifications for appearance and container integrity. Completes end of batch reconciliation and count verification.

Paragon Vision – Mesa, AZ

Label Technician October 2017 – December 2018

- Maintain a constant workflow throughout finished lens production.
- Scan work orders into the system and print labels.
- Apply correct label to the vial with the finished product.
- Pay attention to small details.
- Verify all information is correct.
- Trained for material handling.
- Work in clean room.

Hillman Group – Tempe, AZ

Temporary Warehouse Associate January – October 2017

- Test the Key Cutter machine (at the end of the assembly line).
- Program the tablets on the machine to work with the software needed to cut keys. Troubleshoot the machines and fix it.
- Measure keys at the end of the process.
- Build the machine from the shell. Wiring all the wires through to a camera and cutter. Making sure it was correctly done.
- Cross trained in other areas: Shipping and building the parts to go into or on the machine.

JPMorgan Chase – Tempe, AZ

Specialist I 2017

- A fast-paced call center. I worked at the credit card customer service center for Freedom Credit Cards.
- Answer calls with a professional, friendly, calm voice.
- Help customers with their Freedom Cards, but if they had another credit card through Chase I would assist them with that card as well.
- Some of my main tasks while on the phone is taking a payment, setting up payments, update information, send out a letter, travel notifications, over the limit waivers, redeem their rewards, balance transfers, and connecting them to the right center.
- Meet the Metrix requirements for the month, which included call average, ratings, down time, and after call. Call average would be two-minutes and sixty-seconds, you needed to have customer ratings over four stars, down time under 9 minutes meaning breaks off the phone, and after call under three minutes.
- First month of working, I was nominated as the fastest learner and improvements made in the whole group brought in.

Starbucks – Mesa, AZ

Barista 2014-2017

- In charge of brewing the coffee and making sure it is fresh and brewing iced teas
- Making the customers drinks using the espresso machine, tea maker, and fizzio machines
- Cashiering
- Running the drive-through
- Cleaning the espresso machine, dishes, sweeping, mopping, and wiping down the counters

Radio Operator and Maintainer 2012-2014

- Installed, operated, and performed a preventative maintenance check on assigned radio equipment
- Performed maintenance checks on assigned vehicles and power generators
- Performed administrative duties such as processing paperwork, awards, and answering phones.

EDUCATION

- Mesa Community College
- U.S. Army Radio Operator and Maintainer Course
- McFarland High School Diploma

ADDITIONAL SKILLS

- Leadership skills
- Proficient in Microsoft Office and Radio Equipment
- Security Experience
- Adaptability
- Able to communicate effectively
- Hard worker
